

KAVACA

BLACK MATT

Kavaca Black Matt is a black matt film created by using a unique technology. Instead of having a layer of paint, our Black Matt PPF has pigment particles infused into the polyurethane layer of the protective film. This guarantees a longer lifespan compared to similar vinyl products and a rich black color during the whole experience with this product.

PRODUCT INFORMATION

FEATURES:

- Rich black matt surface
- Discoloration resistance
- Oxidation resistance
- Anti-solvent
- Anti-fouling
- Prevents scratches and chipping
- Hydrophobic
- Easy cleaning
- Resistance to high temperatures, max 180 °C for short term exposure
- Minor scratches healing in room temperature overtime
- Outdoor lifetime: up to 10 years
- Shelf life: 5 years from the date of manufacturing
- 12 years limited warranty

USAGE AREAS:

- Exterior Styling
- Interior
- Wheels
- Rims

PROPERTIES:

- GLOSS: <20% (60°)
- HYDROPHOBIC: >90° (Water contact angle)
- SELF-HEALING: >60° (Heat gun)
- 100% MODULUS: <100 kg/cm² (ASTM D412)
- TENSILE STRENGTH: >200kg/cm² (ASTM D412)
- ELONGATION: >300% (ASTM D412)
- PEEL ADHESION: >1.200 g/in. (ASTM D3654)
- THICKNESS: >160±2 micrometers

PACKAGE:

Branded Carton Box (12,5 KG)

ROLL SIZE:

1.52 x 15 meters

INDUSTRIES:

- Automotive
- Aviation
- Marine
- Construction
