- Chemical and contamination resistance
- Scratch Healing by heat-gun with temperature above 100°C
- Resistance to high temperatures
- Outdoor lifetime: 5 years
- Shelf life: 5 years from the date of manufacturing
- 12 years limited warranty

#### USAGE AREAS:

- Exterior
- Interior
- Wheels
- Rims

#### INDUSTRIES:

- Automotive

#### PROPERTIES:

- GLOSS:** >96% (60°)
- TRANSPARENCY:** >96% (Haze meter)
- HYDROPHOBIC:** >98° (Water contact angle)
- SELF-HEALING:** >100° (Heat gun)
- ANTI-YELLOWING:** <0.8ΔE (Q-UV 1.000 Hours)
- 100% MODULUS:** <90 kg/cm<sup>2</sup> (ASTM D412)
- TENSILE STRENGTH:** >300 kg/cm<sup>2</sup> (ASTM D412)
- ELONGATION:** >500% (ASTM D412)
- PEEL ADHESION:** >1.400 g/in. (ASTM D3654)
- THICKNESS:** >183±2 micrometers

#### PACKAGE:

Branded Carton Box (12,5 KG)

#### ROLL SIZE:

1.52 x 15 meters

### TEST RESULTS

Kavaca SPEC PPF has been exposed to non-yellowing testings (KS M ISO4892-2:2012, KS A 0066:2015, KS M ISO 2813:2015) by KTR - Korean Testing and Research Institute. The Institute is known as an international recognized testing body (ISO/IEC 17025).
